

# STUDENT-ATHLETE SHOWCASE

We take your college recruitment personally

## **Projected value of combined scholarships awarded to the LAB Class of 2015: \$190,000**

SAS was able to get my name and film in front of many college coaches who would never had heard of me but for SAS. From that exposure came many contacts from coaches at D2, D3 and NAIA schools all over the country, along with offers of financial support and visits. While my decision was not easy, it certainly was not limited. I had great visits to different areas of the country. I am thrilled to have Ave Maria University been my last SAS contact/visit, and to have found a home! Thanks to SAS and LAB Foundation for all of their assistance!

### **Matt Houghtaling**

Regis Jesuit HS (Aurora, CO) – 2015  
Signed with Ave Maria University (FL)

Mr. Walz, I wanted to let you know that I signed a Letter of Intent to attend and play football at Carroll College in Helena, Montana. I am receiving a \$12,000 football scholarship and a \$13,000 merit scholarship. Thank you for everything! The program was tremendous and I could not have done this without you and the LAB Foundation.

### **Cole Greff**

Golden (Colo.) HS – 2015  
Signed with Carroll College

**Quote from Head Coach, Mike Van Diest:** “I think Cole is a real steal out of the state of Colorado. He is a 6-4, 220 pound freshman linebacker. He is also an outstanding basketball player on a team that only lost one game in the state of Colorado last year. Cole has a chance to be a great player for us in the future.”

**Conor Young**

Cozad HS (Cozad, NE) – 2015

Signed with University of Nebraska

Because of the generosity of the LAB Foundation, our son, Conor, had numerous opportunities to continue his athletic participation at the next level. The LAB Foundation provided Conor with an SAS football award. SAS worked diligently to get the information on this small town mid-western athlete out to schools across the country. Conor had several contacts with schools regarding not only the opportunity to continue his football career, but have his education paid for, as well. We were so pleased that he was approached by several Ivy League schools, something that may not have happened if not for SAS and their ability to reach

out to these institutions. In the end, our Nebraska boy chose to continue his education as a Regent Scholar and suiting up as #31 on the Husker football team at the University of Nebraska - Lincoln. Thank you to SAS for providing Conor with numerous opportunities and to the LAB Foundation for making the SAS contact possible.
