

STUDENT-ATHLETE SHOWCASE

We take your college recruitment personally

The mission of the SAS/LAB Foundation partnership is to help college-bound athletes maximize their scholarship opportunities & realize their individual dreams.

The Logan Bauman foundation was instrumental in helping me establish and reach my college goals. The foundation gave me the head start I needed to get to where I am now. And with SAS on board, I learned how to interact with college soccer coaches and get myself out there, which are skills that I will be needing soon as I pursue a college internship. So in many ways, the LAB foundation and SAS are helping me reach my future goals as well.

Tyler Neate

Colorado School of Mines
Legend HS '13

The Logan Bauman Foundation played a major role in helping me with my college football recruitment. Without the foundation and their support, I would not have been able to enroll in the Student-Athlete Showcase (SAS) program, and I don't believe I would be where I am today... playing football for Colorado School of Mines."

Drew Stephon
