

“Buddy Bench”

Logan Bauman Memorial Fund was started in 2009. Logan Bauman died suddenly as a pedestrian in a traffic accident near his home on December 6, 2008 at the age of 14. Logan made a huge impact during his short time on earth. There was a certain sparkle about Logan that lit up a room. He loved life and the people in his life. Sports were important to Logan, especially football and the Parker Hawks, for whom Logan played quarterback in his final season. Logan chose to view the cup as “half-full.” His enthusiasm, optimism and hustle distinguished Logan’s approach to sports – and life. Logan enjoyed school and being with his friends and teachers, and believed knowledge provides empowerment and choices. Logan was a world-class player of Guitar Hero and delighted in proving it to anyone who dared to test his skills. A natural leader, Logan never took more from a relationship than he was willing to give back. Logan was a great friend to so many people and though he may be gone, he will never be forgotten.

In 2016 the LAB Foundation constructed its first “Buddy Bench” at Legacy Point Elementary in Parker, CO where Logan and his sister Alyse attended for a few years. The idea is to construct the bench in an area such as a playground area, accessible for any child having a difficult time or in need of a friend. Our mission is: “to eliminate loneliness and foster friendship.” Logan was known for always reaching out to his classmates or even a stranger as evident in the numerous testimonials after his passing. He truly strived to “make a meaningful difference in someone’s life every day.”

The LAB Foundation would like to work with you, your staff and students in promoting our project by providing the necessary funds to construct a “Buddy Bench” for your school. Please feel free to contact us via email at baumans@loganmemorial.org or call us at 303-805-8932. Thank you!
