

Castle Rock Elementary – Buddy Bench

Castle Rock Elementary School is thankful for the generous donation of a Buddy Bench from the Logan Bauman Memorial Foundation! The Buddy Bench provides a way for our school to foster community for students within the walls of our building and outside on the playground. In conjunction with our character education program, the Buddy Bench will encourage students to exhibit kindness, compassion and friendship.

This morning, our student leadership team had the opportunity to meet Mr. Andy Bauman and hear about his vision for the Buddy Bench and discuss how they, as our student leaders, will lead the way to demonstrating the Buddy Bench concept of kindness to our student body.
